

ANNEXURE VI

GUIDELINES FOR EVALUATION OF PROPOSED RESEARCH WORK

A. METHODOLOGY: (500 max)

- Objectives – Accurate, Feasible, Specific, measurable (100 max)
- Procedures/Method of data collection. (100 max)
- Appropriateness of Study Design. (100 max)
- Assessment tools. (100 max)
- Appropriateness of methods of data analysis/ statistical analysis. (100 max)

❖ Reviewers need to correlate the title with methodology.

B. NOVELTY: (80 max)

- Novelty of ideas. (40 max)
- New approach in the existing concepts/ knowledge. (20 max)
- Formulation of the problem and hypotheses. (20 max)

C. RELEVANCE & FEASIBILITY: (120 max)

- Significance of research question. (30 max)
- Relevance in terms of Translational value. (30 max)
- Appropriateness of timeline. (30 max)
- Achievability of the Objectives (30 max)

EVALUATION FORMAT OF PROPOSED RESEARCH WORK:

Sl. No.	Criteria	Points out of 700	Points obtained	Remarks
1.	Methodology (Objectives, Materials & methods, parameters, formats, protocols, design, expected outcome etc. of the proposed work)	500		
2.	Novelty	80		
3.	Relevance and feasibility of taking work in the current setup within time limit.	120		
Total points obtained				
Overall Remarks:
